Dimensions:

Length - 155cm/61"

Width - less than 70cm/28"

Height - 85cm/34"

Weight: 98kg

Muck-truck® Loading Ramp

A 'must have' for Builders and Hire Shops.

The loading ramp, ruggedly constructed of 2x5ft sections, enables safe tipping into a skip or truck. Easy to assemble on-site by one person. The ramp folds flat for easy transportation, the micro dumper will sit neatly and securely on top of the ramp, across the width of a standard transit van.

Dimensions: (W) 778mm (30.6") (L)

1520mm (59.8") x 2 (H) 108mm (4.3")

Weight: 55kg (top- 35kg, bottom - 20kg)

Muck-truck® Ball-Hitch

Easily attached to replace the skip. Can be used for trailers, caravans or boats. Can tow and pull up to a 2.5 tonne trailer in weight providing the machine still maintains traction to the surface area. Very manoeuvrable and very powerful. Mucktruck ball hitch - easily attached to replace the skip.

Ball Size: 50mm

Weight: 3.4kg

Capacity: Can tow and push up to a 2.5 tonne trailer (providing muck-truck™ retains traction)
